

INDIA MUSHROOM SUMMIT '23

India Mushroom Summit is being organized in association with Shaheed Rajguru College of Applied Sciences, & Campus of Open Learning, University of Delhi. The event is going to be held at Sardar Vallabhbhai Patel Chest Institute, from 20th Nov. to 22nd Nov.2023. The theme of the event is 'Ideas, Industry, Innovation' in the area of Mushrooms. It intends to focus upon the various developments in mushroom sector related to cultivation, post-harvest technology, marketing, developing skilled manpower. Various eminent Scientists, Industrialists, Academicians are invited not only from India but other countries also to share the advancements in their respective specialized fields. Thus, providing a wide platform to interact, to discuss, to network for better understanding and positive outcomes in this growing Mushroom sector. As per the National Education Policy, a major thrust area is skill enhancement courses. And Mushroom Cultivation is one such course which is being offered by Delhi University. This summit would give necessary exposure to the students & teachers to hone up their skills as well & taking skill enhancement a step further.

Please register for the summit. The details are in the brochure shared.
