

Following activities were organised in the academic session (2019-20):

- Robotics club in collaboration with department of Instrumentation organised two days Workshop on “I-SENSO BOTZ for Embedded System Design” from 13th February to 14th February, 2020. The workshop is supported by IEEE EDS Delhi Chapter. This workshop is mainly based on embedded system and sensory management. The resource person is from ROBOSOL, a unit of AAKAAR IIT Bombay.
- Robotics club conducted a one week lecture series for the club students to enhance the technical knowledge of sensors and programming language from 27 September to 4 October 2019. The lecture series focused on real life applications of Arduino Microcontroller.
- Students of robotics club have participated in E-Yantra Robotics National Competition 2019-20 organised by IIT Bombay. One team of four members has selected. E-Yantra is as project sponsored by MHRD through the Nation Mission on Education, Government of India.
